FOOTBALL

EVENT SPOR TRAVEL has been recognized as one of the leading travel specialists in organizing professional football training camps.

Football Training Camps in Türkiye for Professionals, Amateurs, and Clubs train like the professionals. For many years, Bundesliga teams have chosen Türkiye for their winter football training camps. We are delighted to offer hotels equipped with professional football facilities along the Turkish Riviera. High-quality grass pitches, located either directly within comfortable hotel complexes or nearby, provide ideal training conditions for professional, amateur, and youth teams alike.

The football fields meet international standards. The mild Mediterranean climate of the Turkish Riviera, its kilometres of inviting beaches perfect for jogging, and its diverse fitness and wellness programs all contribute to motivation, performance, and team spirit. In addition, fresh and light cuisine with specially designed menus tailored for athletes, breath-taking scenery, numerous cultural attractions, and extensive shopping opportunities create the perfect setting for your football training camp.

LEGENDARY LANDS FOR GAME OF GODS

TENNIS

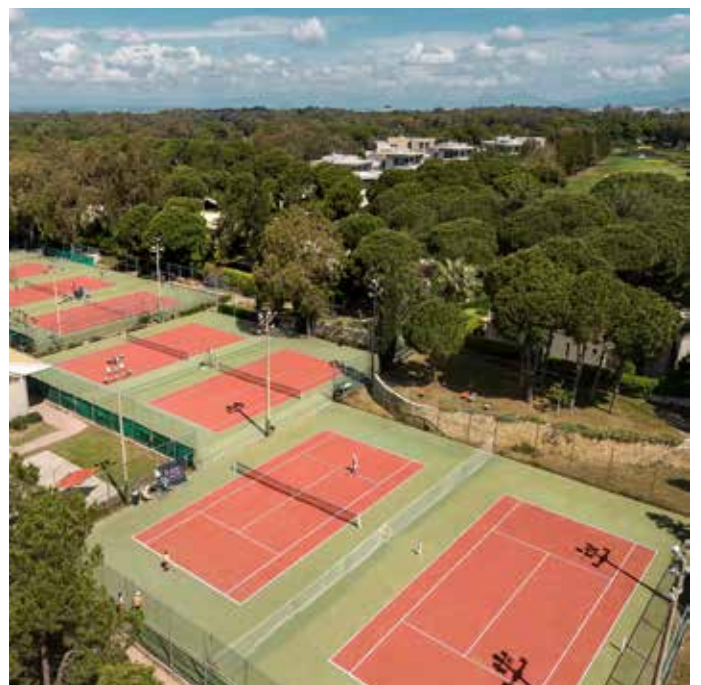

EVENT TRAVEL AGENCY

With its ideal climate, world-class resort facilities, and a rapidly growing tennis scene, Turkey has quietly become a top destination for tennis holidays. Antalya's luxury resorts boast some of the finest clay and hard courts in the region, used by professional players and passionate amateurs alike.

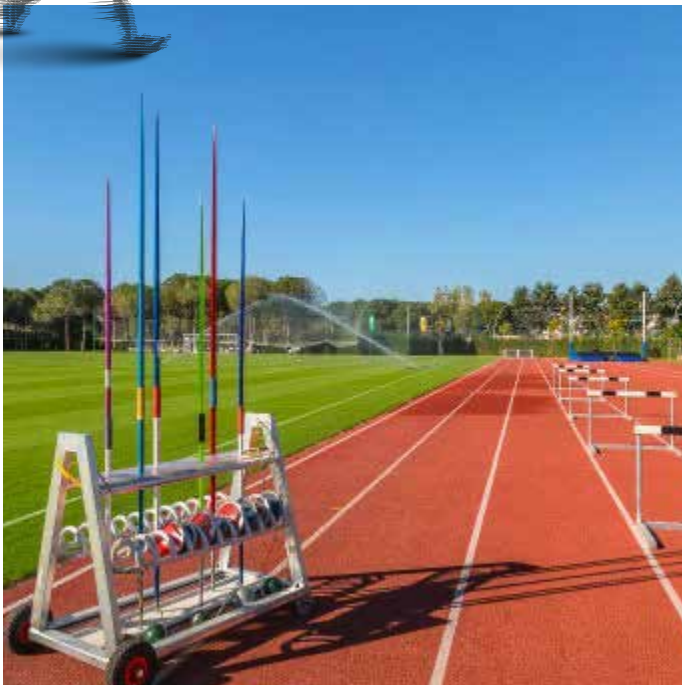

Whether you are looking to sharpen your game with expert coaching, take part in organised tournaments, or simply enjoy a few leisurely sets before dinner on the terrace, we craft tennis breaks that match every level and every expectation. Our long-standing relationships with the leading resort clubs ensure you always get the best courts, the best coaches, and the best value.

ATHLETICS

TRAIN WHERE CHAMPIONS PREPARE FOR GREATNESS

Antalya has quietly earned its place on the global athletics map. The city hosts international athletics meetings that attract elite athletes from across the world, and its climate makes it a preferred winter training base for long-distance runners, sprinters and field competitors.

The Antalya Athletics Arena is one of the most modern facilities in the region, and the surrounding landscape – from coastal running routes to mountain trails – offers training environments of extraordinary variety. We work directly with athletics clubs, coaches, and event organisers to create tailored training camps and spectator packages that put you right inside the action.

A high-angle, top-down view of a swimmer in a pool lane. The swimmer is wearing a black swimsuit and a white swim cap, and is captured in the middle of a stroke, creating a splash of white water. The pool lane is marked by black lane lines on a clear blue water surface.

SWIMMING

We provide training in top-quality conditions with 50-meter Olympic swimming pools designed for professional performance and athlete development. Our facilities offer a modern, comfortable, and motivating environment where swimmers can train at the highest standards.

With excellent pool conditions, professional organization, and a focus on performance, we ensure the best possible experience for athletes and teams.
